LEADERSHIP INSTITUTE OF ZAMBIA (LIZA) UPDATE 2023

'Some time later Paul said to Barnabas, "Let us go back and visit the brothers in all the towns where we preached the Word of the Lord and see how they are doing." Acts 15:36.

The Apostle Paul here is highlighting the importance of reviewing our work to ensure that we stick to our vision and achieve our goal. Paul and Barnabas had faithfully labored to preach the Word of God, which resulted in conversions and planting of new churches. Now he desired to visit the towns where they had worked, and see how the churches were doing.

We, too, as the Leadership Institute of Zambia, faithfully followed what God put in our hearts in pursuit of our six ministry focus areas. The Lord provided the resources for the ministry in the year under review through our partners. We were delighted to host Brian Maydew and Pastor Carrie Johnson, who represented our international partners.

It was our joy to travel with them around the country to show them some of the projects they supported. It is important to note that everything we have done has been made possible with the faithful support of our partners, and we are greatly indebted to them for their continued, love, trust and support. Indeed, their support keeps our ministry wheels rolling.

We distributed medical supplies and equipment to Kanyama Self-help Health Post in Kanyama, Lusaka; Mtendere Hospital in Chirundu; Jembo Rural Health Centre in Pemba; Siachitema Rural Health Centre in Kalomo District, and Zimba Hospital in Zimba. In the education sector, we supported Zimba Mission College of Nursing and Midwifery, Zimba district, Zimba; Pilgrim Wesleyan Bible College, Pemba district; 16 grant-aided and four Government schools with supplies and infrastructure development.

It was our privilege to support two orphanages, namely: New Day Orphanage in Mapanza, Choma and Children's Nest Orphanage in Choma. In Kanyama Township and surrounding areas, we supported orphans and vulnerable children in primary and secondary schools. It was our joy also to provide scholarships to college and university students in our Educating Future Leaders project.

In our Economic Empowerment project, we supported four pastors and four lay people with financial support towards their agricultural projects.

Sadly, we lost our accountant Boyd Musozya, who faithfully served under our project. Boyd was a gift to the body of Christ, diligently serving our ministry. At his funeral, we became aware of other churches and faith-based organisations he had served faithfully. Let us remember his widow and three young daughters.

Due to strategic ministry realignment, we rebranded from International Leadership Institute of

Southern Africa (ILISA) to **Leadership Institute of Zambia (LIZA)**. A replacement certificate from PACRA was issued on 29th November, 2023. Interestingly, and by sheer stroke of chance, this is also my birthday.

I'm glad to update you on what we were able to achieve as LIZA in 2023, and invite you to share in our thanksgiving to God for His faithfulness in providing the resources we needed, through our various partners.

Blessings,

Alfred Kalembo
Chief Executive Officer.

Turning big dreams into reality: The story of Ephraim, nuclear science student

“Reflecting on my journey to obtain a master's degree, I'm overwhelmed with gratitude for the pivotal role played by the International Leadership Institute of Sothern Africa (ILISA) – Educating Future Leaders Sponsorship project during my undergraduate years.

This sponsorship not only removed the financial barriers but also illuminated a clear path toward my aspirations and potential.

Receiving the ILISA-Educating Future Leaders Sponsorship was a life-changing moment for me who was raised and lived with my parents in the poor Kanyama Township of Lusaka, Zambia. It not only eased the financial burden, but also fueled my determination to pursue higher education.

With this support, I embarked on a Bachelor of Science in Physics program at Copperbelt University.

Currently, I find myself immersed in a master's program in Nuclear Physics and Technology at Moscow Engineering-Physics Institute (MEPhI), facilitated by the Higher Education Loans and Scholarships Board (HELSB).

Ephraim Chiyowela

My experience at MEPhI has been transformative, enriched by academic rigor and diverse perspectives shared by fellow scholars. I'm deeply grateful for the government's commitment to invest in education and partnership with organizations like ILISA.

Fueled by my passion for nuclear physics and technology, I aspire to contribute to advancements in energy production, safety protocols, and waste management.

Armed with a deep understanding of nuclear reactions and reactor design, I aim to explore innovative approaches to enhance the efficiency and sustainability of nuclear power generation.

Moreover, I'm dedicated to nurturing the next generation of scientists and engineers in the field of nuclear technology through mentorship and educational initiatives. I believe in cultivating a skilled workforce capable of addressing the complex challenges facing the nuclear industry.

In conclusion, I owe immense gratitude to the ILISA-Educating Future Leaders Sponsorship and HELSB for providing me with this opportunity. Their support has not only enabled me to pursue my academic goals, but has also instilled in me a sense of responsibility to give back to my community and contribute to societal advancement.

With determination and humility, I commit to making the most of this opportunity and inspiring future generations of scholars.”

I am forever grateful for your support and kindness; it goes a long way.”
